

ETHICAL PRINCIPLES

The aim of ELEKTROWIN a.s. is to ensure the fulfillment of the obligations of producers of electrical equipment, without economic benefit from the activity. The company was not established with the aim of making a profit and all financial resources provided by the producers are intended to fulfill their obligations under the End-of-Life Products Act.

ELEKTROWIN a.s. and all its employees are in compliance with the following principles:

COMPLIANCE WITH ALL APPLICABLE LAWS AND REGULATIONS

integrity and compliance are fundamental to the operation of the company

ENVIRONMENTAL PROTECTION

the main activity is the take-back and recycling of end-of-life electrical appliances and ensuring the use of materials obtained from the processing of electrical waste

PROACTIVE APPROACH TO ADDRESSING THE CONCERNS OF PRODUCERS AND ALL STAKEHOLDERS

requests and queries are dealt with the highest priority

DIGITIZATION OF PROCESSES AND DOCUMENTATION, INNOVATION

utilization of a unique information system linking all sides of the recycling process

EFFICIENCY AND TRANSPARENCY

every crown spent is spent efficiently and solely for the purpose of fulfilling producers' obligations
transparent and regular publication of information about our activities

SOCIAL RESPONSIBILITY

cooperation with sheltered workshops, projects for children and youth, helping the needy

EQUALITY

all partners involved in the scheme have a level playing field regardless of size, and market presence

FLEXIBILITY

finding the optimal solution for partners while adhering to uniform rules

LOYALTY

all partners are important to us

TRUST

for us, collaboration is a commitment to long-term partnership
